Patent

REMARKS

On December 13, 2004, applicant filed a response to the office action dated August 12, 2004. Upon review of the file the applicant noted that an amendment to the specification to clarify the priority claim was in order.

The application was filed with a declaration making reference to the provisional patent application number 60/102,636. The first paragraph of the specification also alluded to the priority claim. The first paragraph also listed non-provisional patent applications from which continuation status was not being claimed. The applicant now wishes to clarify that priority is being claimed from the provisional application.

The application was filed prior to November 29, 2000. Thus, the specification is hereby being amended under 37 C.F.R. § 1.78(a)(5)(ii)(A) to amend the priority claim.

Respectfully submitted,

Dated: January 20, 2005
